Firming

Supercharges the skin's rejuvenation process and works to improve the appearance of sagging and skin laxity

Rozatrol

A boosted concentrate designed specifically for red + sensitized skin, controls surface oil while providing calming and soothing benefits. It supercharges the skin's rejuvenation process when used post-treatment, elevating overall treatment results.

Brightening

Promotes discolouration correction, skin tone evening, and skin brightening.
Anti-inflammatory ingredients to help calm and soothe skin after treatment.
Intensely hydrates and restores skin barrier function for a smooth and luminous complexion

HydraTite:

£350 - x1

£875 - x3

£1575 - x6

Can be added onto any of the Hydrafacial Itreatments
Radiofrequency uses low energy radiation to heat up the deeper layers of the skin

Tightens skin
Stimulates collagen
Reduces and prevents fine lines & wrinkles
